WTC COMMUNITY WEEKLY

Virtual Run

Have you ever participated in a virtual run?

It's a 'new' sport that starts to pick up in 2017 and becomes highly popular during the pandemic.

It works exactly the same as any other type of running, the difference is that the entered race can be run at any time, any location, any pace, on a treadmill or outside in another country! All you have to do is enter a race and provide evidence that you have done it.

It saves you the hassles of waking up early, being in a crowd, or getting too hot under the sun.

Fancy a try? Test it out on Hanwha Life's Dream Race 8+ virtual run this October 11 to 24. Register from October 4 to 24 and win exciting prizes during the race. You certainly don't want to run out on this one!

HANWHA LIFE'S DREAM RACE 8+

To celebrate its 8th anniversary and the launch of Health Insurance, Hanwha Life Indonesia are organizing a virtual run for individuals & groups of 5.
