

INSIGHT

WTC COMMUNITY WEEKLY

Did you know?

World Tree Day was made to commemorate and honor J. Sterling Morton, a nature lover from the USA who fought and advocate for the importance of trees & insist that there needs to be a day dedicated to it.

World Tree Day

World Tree Day serves as a perpetual reminder that the world needs, and will always need, trees in order for lives to continue to thrive in this blue planet.

Protecting trees and planting new ones is essential to improve the quality of life and well-being of people, but also to reduce emissions, prevent hydrogeological instability and protect the soil, improve air quality and the livability of urban settlements.

Imagine for a second that you are walking on a hot, sunny day. What do you look for? Trees. For shades, for fresher air, for protection. Talk about versatility.

So to help you relax, here at the WTC complex, we provide a sanctuary with its neatly-trimmed bushes, plants and trees. if you ever need to recharge yourself, come explore the many green spots on our ground, sit back and enjoy the breeze.

Yours trully,

the community editor
