Indonesia Tangguh, Indonesia Tumbuh!

Celebrate the 76th Indonesian Independence Day with the spirit of *Indonesia Tangguh, Indonesia Tumbuh!*

Even though the Covid-19 pandemic is still a polemic in Indonesia especially, don't let it break our spirit of independence and limit all activities that will hinder our totality in providing benefits to many people.

Of course, by implementing the health protocols that have been established, we must continue to move forward, take care of ourselves and our families, do positive things without compromising our quality, and continue to pray.

Hopefully this pandemic will pass soon. So that we can moving towards a better future. Build a better tomorrow and let's make a world the next generation can be proud of!

Yours trully,
