Hampers vs Parcel

If, like me, you think hampers and parcel are the same thing, well.. you are forgiven.

The word *hamper* is said to have originated from the Old French *hanapier*, a wicker basket used to carry trophy, food, wine and official papers.

While *parcel*, in English, is a thing or collection of things wrapped in paper in order to be carried or sent by mail.

Of course both have been modernized these days and sending them to our closest ones for the holidays such as Idul Fitri and Christmas has become a trend and tradition.

Simply buy and send, but you can always go the extra mile and assemble your own hampers/parcel too, make it personal.

Perhaps do a mix-and-match from many of our retail tenants. For example, for sweet and savoury, there are PEPeNERO, Monami, The Harvest Express, Animo Bakery, Gordon, and Auntie Anne's to choose from.

Or you can do meal sets from the restaurants as well. They would come in handy when it is time to break the fast.
