

INSIGHT

WTC COMMUNITY WEEKLY

Enjoy Jakarta

It is a well-known fact that the city of Jakarta transforms overnight for Eid holidays. Gone are the traffic jam and the noise, the crowded lanes and motorcycles on the sideways.

This is truly the time to enjoy Jakarta. Now. This next three days. Why? Because the provincial government predicted 20 to 50.000 newcomers will arrive in the capital after the homecoming. That's why.

Here are some things you can do to experience Jakarta like never before:

- Picnic in the park
- Get creative photographs on mainstream public places
- Ride on the double-decker city tour bus
- Museum & mall-hopping by public transport
- Become a local tourist
- Sample new culinary in town

Yours truly,

the community editor

Alerta!

In relation to the recent report on mysterious hepatitis infection, the Indonesian Medical Association (PB IDI) along with the Indonesian Pediatric Society urge the general public to:

- *remain calm and cautious*
- *regularly washing hands*
- *drink clean potted water*
- *eat well cooked and clean meal*
- *dispose of diapers properly*
- *use own eating utensils*
- *wear masks*
- *maintain a safe distance*

Consult to a health facility when these symptoms occur:

- *stomachache*
- *vomitting and diarrhea*
- *brown urine*
- *pale excrement color*
- *seizures*
- *becoming unconscious*
