## WTC COMMUNITY WEEKLY

### WTC Nursing Room

You asked and we delivered.

Introducing our newest facility at the WTC Complex: Nursing Room!

Dedicated to women, the room provides a safe and calming space to do your breast-pumping business in private.

You can also up your oxytocin level by getting a creambath at Haircut and massage at Serene reflexology beforehand. And once done, why not recharge and refill by dining in our various F&B tenants? Your body needs lots of fluids and some extra calories to produce milk after all.

Nursing Room is located at WTC 2 LG and opens on Mondays to Fridays from 7 AM to 7 PM, and Saturdays at 7 AM to 11 AM.

We encourage you to bring your own pumping equipment such as breast milk pouch, thermal bag and ice gel as well as bottle cleanser, Happy power pump!

Yours truly,  
the community editor

### 1 Shirt 10 Thousand

Jakarta Land's Director Syahzan Kudus (right) hands over '1 Shirt 10 Thousand' charity donation to UNICEF Indonesia's Ismail Kamil, Deputy Representative for Operations.

The Ramadan charity at the WTC Complex collected 1,271 pieces of clothing which have been donated to several charities and organizations.
