WTC COMMUNITY WEEKLY

Fueling Up the Wallet

Subsidized fuel prices are up and so, consequently, transportation cost becomes higher - especially if you drive your own vehicles or a frequent online transport user.

The good news is, it doesn't have to be. The WTC Complex is so strategically located in the Sudirman Road and is easily accessible by cheap public transports.

For MRT, go off at Bendungan Hilir Station. Depending on where you start, it should take no more than Rp 12.000 for a single trip.

TransJakarta Bus, stop at the Karet Sudirman shelter. It's only Rp 2.000 if you enter before 7 AM, or Rp 3.500 afterwards. Or by train, exchange at Sudirman Station to MRT/TransJakarta. It costs Rp 3.000 for the first 25 KMs.

And if you live close by, biking to work is an option. We have a designated bicycle parking at basements 1 at WTC 2 and 3.
