WTC COMMUNITY WEEKLY

## *Earthquake*

A 5.6-magnitude earthquake hit Jakarta and its vicinity areas early last week, wrecking havoc particularly in the city of Cianjur in West Java.

If you were at the office that Monday, you would feel a rather strong vibration lasting for at least 20 seconds.

In the face of an earthquake at a high-rise building, or even at home, remember to remain calm and not panic.

Drop to the floor, cover yourself by hiding under a table or solid surface, and hold on. Stay away from windows, glass and any other hanging objects. Do not use the elevators.

When you're at the WTC Complex, our Emergency Response Team is reachable at 021-5206616 or through Tenant Service Centre at 021-5211500.

## Next Week at WTC

---

**WTC Jakarta Cup**

**Last 16 - Tue, 6 Dec**

**Quarter-finals - Wed, 7 Dec**

**Semifinals - Thurs, 8 Dec**

**Final - Fri, 9 Dec**
