WTC COMMUNITY WEEKLY

The WTC Complex

If you're new to the WTC Complex, it'll take some time to familiarize yourself with everything it has to offer.

With many green areas, various dining options, coffee shops, minimarkets, a gourmet supermarket, pharmacies, gyms, medical, dental and skin clinics, massage and reflexology, bakeries, laundry, bag repair, and even a post office, the WTC Complex has you covered.

The latest additions include popular tea and ice cream store Mixue, Eatlah ricebox, healthy eating Grainsly, Subway sandwich, Japanese restaurant 8Fuku, result-focused functional training Recharge and soon Joe & Dough for coffee and baked goods.

Make sure you are following @wtc.jakarta on Instagram for updated promotions and programs of our tenants and also, wishing a very happy golden anniversary to the Complex's operator, Jakarta Land!

Yours truly,
the community editor
