Life at WTC Photo Exhibition

Jakarta Land are delighted to present **Where Work Meets Art: A Photographic Journey on Life at WTC**.

As part of our anniversary this July, we held a month-long photography competition in June where we invited the WTC community to get behind the lens and take photos which reflect the way they see our office complex. The theme, Life at WTC, aims to portray what life is like at WTC and the people in it.

Each photograph is taken by our tenant and judged professionally by black-and-white photographer Chairul Umam and visual artist Hardi Budi, in association with ISA Art & Design.

The exhibition can be enjoyed at WTC 3 lobby area until mid October.

Yours truly,
the community editor
