## Pawrenting

5 tips to be a good pawrent:

### 1. Do your research before you commit

Select a pet that's suited to your home, lifestyle and financial.

### 2. Set a monthly budget and extra emergency funds

To provide for the essentials such as food, medicine, grooming, vaccines, etc.

### 3. Visit your vet regularly

Crucial for preventing diseases that can be too life-threatening and costly to treat. Limit reproduction through spay/neuter, containment or managed breeding.

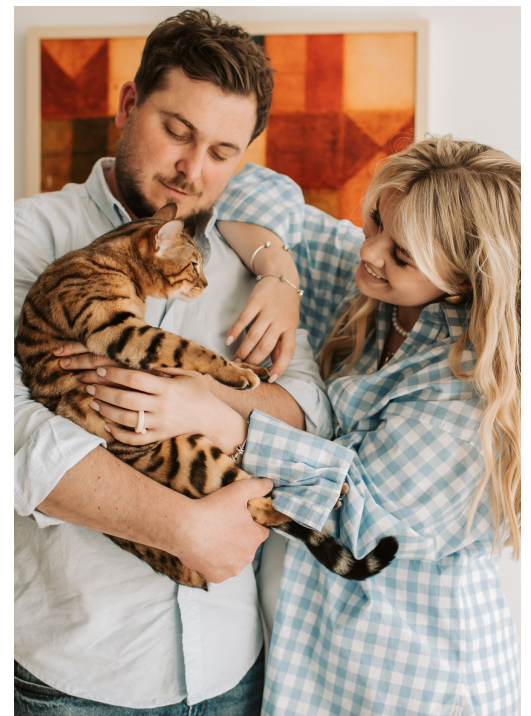

### 4. Together time

Socialize and train your pet. Most animals require physical activity in order to build muscles, develop immunity, and exhaust pent-up energy.

### 5. Prepare for the worst

An emergency plan and evacuation kit for your pet, including if you cannot care for them anymore. Also includes recognizing any decline in your pet's quality of life and make timely decisions in consultation with a vet.

If you have any questions about your pets, ask the expert this Friday at **Pet Talk**, 3 PM at Conference Hall WTC 3. [Register](#) now and win exciting prizes from Happy Pets Indonesia!
