When It Rains

For the past few days, Jakarta and its neighboring cities have been experiencing gloomy weather and rain. While this is a welcome break after an extended period of dry season with humid air and extreme heat, there are a few downsides to it. Flood, road congestion, limitation of outdoor activities, delayed travel, etc.

Thankfully, when it rains at WTC, we have got you covered. Literally. To go into any of our five buildings at the complex, simply go under the covered walkways which connects WTC 1, 5 and 6 to WTC 3. WTC 2 and WTC 3 have a connecting tunnel underneath which leads to retail area.

Can't go out to jog? Pop by Recharge at WTC 1 lobby or F45 near Gate B for your fitness routine. Want to pamper yourself while waiting out the rain? Swing by Serene Reflexology and Skin+ at WTC 2 lower ground. Dentist appointment? There is Divine Dental Clinic at WTC 3 retail podium. Need your clothes cleaned? Filoli laundry is available at WTC 2 retail.

Stay dry and beat the traffic on your commute home with nearby MRT and TransJakarta, just don't forget to bring an umbrella, raincoat and slipper!

Yours truly,
the community editor
