PAPER TO TREE CAMPAIGN

As part of our ongoing commitment to sustainability, Jakarta Land is pleased to introduce our latest initiative, the **Paper to Tree** campaign.

From October 1st to 18th, we invite you to contribute to a greener future by donating your used papers in exchange for plant seeds, which will be cultivated around the WTC Jakarta complex.

This program not only supports environmental conservation but also helps reduce office waste.

Types of papers accepted include HVS, magazines, books, brochures, newspapers and boxes, both in shredded or its original form. Please bundle them into different categories and make sure no confidential information is on it.

For drop-offs and pick-up arrangements, contact our Building Management Office at 0812-9225-6879 or 0815-1479-6260.

Yours truly,
the community editor
