NEW EV CHARGING AT WTC JAKARTA!

New electric vehicle charging now available at WTC Complex Jakarta!

Terra Charge has collaborated with Jakarta Land to install its first DC Charger in Indonesia along with 7 AC Chargers as our latest initiative to improve facilities at WTC and be closer to our tenants' needs.

The machines used are ABB Wallbox 22 kWh (Type 2 Connector, compatible for all EV) and Terra CE 124 50kW (CCS 2, Type 2, CHAdeMO - max 1 AC 1 DC in use). 2 AC & 1 DC charging points are located in front of WTC 6, 3 AC points are placed behind WTC 6, and 2 AC behind WTC 1.

To celebrate the soft launch, Terra Charge is offering a free charging promo until 21 January 2025. Download the app for more information.

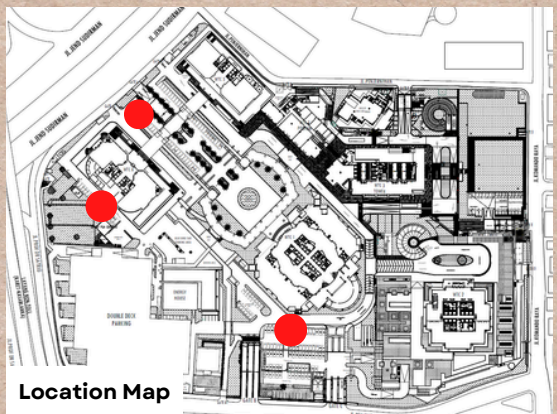

Yours truly,
