WTC COMMUNITY WEEKLY

Vaccination

As COVID-19 cases in the capital starting to lower, the government has decided to allow non-essential sectors to have 25% workers from normal capacity.

More restrictions have been relaxed and there are vaccination drive pretty much everywhere with 8 different types of vaccines to choose from. As per September 2021, the Health Ministry site states 45% of the whole population have received their first dose, while 25% have completed the double.

Keep in mind, it does not prevent Covid, but helps to build a stronger immune system to fight it. So if you haven't had one already, now's the time.
